

Stirling Castle and The Falkirk Wheel

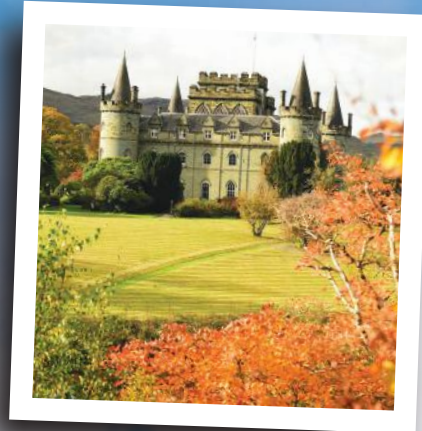

Stirling Castle is one of the largest and most important castles, both historically and architecturally, in Scotland. Several Scottish Kings and Queens have been crowned at Stirling, including Mary, Queen of Scots, in 1543.

The Falkirk Wheel is a rotating boat lift. It connects the Forth and Clyde Canal with the Union Canal. The wheel is the only rotating boat lift of its kind in the world, and is regarded as a Scottish engineering landmark.

Inverary Castle and Four Lochs

Inverary Castle was built in 1789 for the 5th Duke of Argyll on the site of the then village. The village was rebuilt on the Loch side, out of view of the castle. The present Duke, Torquhil - Ian, captained Scotland to victory in 2004 and 2005 in the World Elephant Polo Championships.
